

'LUNCH & LEARN': FREE SPECIALIST BATHING WORKSHOPS

If you are a Carer, Occupational Therapist, Physiotherapist or Moving & Handling Specialist, these free assisted bathing demonstrations are invaluable

Lunch & Learn educational workshops highlight the latest techniques to maximise dignity, care and safety for semi-ambulant bathers. They also outline techniques to minimise moving and handling risks so carers can avoid potential musculoskeletal injuries.

Presented by an Abacus product specialist, each short session is informal yet informative and includes a complimentary lunch. Every workshop provides the opportunity for hands-on experience of Abacus power assisted bath and accessories.

Abacus works closely with healthcare professionals to deliver fully integrated

accessible bathrooms. This proven experience and understanding of OT and end user needs will be explained in every presentation.

The Abacus demonstrator will be able to answer many questions regarding task, bather and product suitability.

Abacus 'Lunch & Learn' sessions can be held anywhere in the UK and at a suitable location of your choice.

They are completely free of charge and free posters can be provided to promote the event.

- **Latest guidance to overcome specialist bathing challenges**
- **Assistive bath demonstrations**
- **Understand how Abacus baths offer real life solutions and life changing benefits**
- **Complimentary lunch and refreshments**

“ *These clinically-led sessions, present an invaluable opportunity to learn about the latest technology available to overcome many specialist bathing challenges.*
